The combined DSTC™ and DATC course is an intensive 3-day course that consists of key note lecturers, multidisciplinary case presentations, fireside discussions and workshops. During the course surgeons, anaesthesiologists and operating room nurses work together as real trauma teams.

The course focuses on:

- Surgical decision making in complex scenarios
- Peroperative anaesthesia and Damage Control Resuscitation
- Operative techniques in critically ill trauma patients
- Hands-on practical experience with experienced instructors (both national and international)
- Insight into difficult trauma situations with learned techniques of haemorrhage control and the ability to handle major thoracic, cardiac and abdominal injuries
- Wetlab
- Multidisciplinary team approach

DECEMBER, 3<sup>rd</sup> • 4<sup>th</sup> • 5<sup>th</sup> 2018

## 1<sup>st</sup> day

- Surgical Decision making
- Damage control resuscitation
- The trauma laparotomy
